

2022 Vermont State Council Report

Dear Executive Director Cherise Imai,

On behalf of the Vermont State Council, I am pleased to submit the 2022 annual report. While the past state council has not been able to meet as a result of a multitude of factors we were able to recruit and convene a new State Council. We were successful and held a meeting remotely on March 29, 2022. The focus of the meeting was to provide an overview on MIC3 and answer any questions from the previously submitted information about MIC3. We also talked about getting more of the VANG leadership reengaged and have several action steps. Letter/MOU to be sent to the Vermont AG along with letters to Vermont Principals Association (VPA) and the Vermont Superintendents Association (VSA) informing again of MIC3 mission and purpose. We also have sent a letter out to all Vermont school guidance directors informing them of MIC3 in hopes to assist military families/children. I have been able to assist ten military families over the past 12 month who were on orders to Vermont with related question specific to the compact and supporting their children. It has been a difficult two plus years and I am hopeful that the pandemic is behind us and we will be able to meet as a new State Council more regularly.

Sincerely,

David Young
