

MIC3 MEMBER PROFILE FLORIDA

OVERVIEW

The Interstate Compact on Educational Opportunity for Military Children was developed jointly by The Council of State Governments' National Center for Interstate Compacts and the U.S. Department of Defense, with input from policy experts, national associations, teachers, school administrators, military families, and federal, state, and local officials. The Compact eases interstate education transition challenges encountered by the children of active duty service members such as enrollment, eligibility, placement and graduation. On average, military students will attend six to nine different school systems from kindergarten to 12th grade.

Initial discussions about the Compact began in 2006, and drafting began early in 2007. First available for legislative consideration in 2008, the Compact was adopted by all 50 states and the District of Columbia in just 6 legislative sessions.

HISTORY

Florida is one of the original 11 states to adopt the Interstate Compact, placing it into statute in June 2008. The model language was adopted with modifications for statutory format. When the bill passed it lacked a funding source for the dues. This was later resolved when funds were allocated in the budget for the Department of Education.
