

MIC3 MEMBER PROFILE OREGON

OVERVIEW

The Interstate Compact on Educational Opportunity for Military Children was developed jointly by The Council of State Governments' National Center for Interstate Compacts and the U.S. Department of Defense, with input from policy experts, national associations, teachers, school administrators, military families, and federal, state, and local officials. The Compact eases interstate education transition challenges encountered by the children of active duty service members such as enrollment, eligibility, placement and graduation. On average, military students will attend six to nine different school systems from kindergarten to 12th grade.

Initial discussions about the Compact began in 2006, and drafting began early in 2007. First available for legislative consideration in 2008, the Compact was adopted by all 50 states and the District of Columbia in just 6 legislative sessions.

While each member state may determine the membership of its own State Council, its membership may include at least: the state superintendent of education, a superintendent of a school district with a high concentration of military children, a representative from a military installation, one representative each from the legislative and executive branches of government, and other offices and stakeholder groups the State Council deems appropriate.
