

Summary: Investments and Reach of the U.S. Department of Education

January 2025

The federal government plays a limited, but crucial, role in supporting American educational systems. The U.S. Department of Education’s mission is to promote student achievement and global competitiveness by fostering educational excellence and ensuring equal access to high-quality learning opportunities. The Department does this by providing funding, guidance, and supports to states and local governments, educational institutions, and individuals to expand educational opportunity and attainment; and providing important protections to all students in pursuing a high-quality education.

What does the Department of Education do?

- Provides substantial funding for schools, colleges, and universities to serve all students
- Invests in high-need educational areas, like mental health, after school programming, and teacher preparation
- Directly distributes financial aid to students and families to attend college
- Protects students from discrimination in K-12 and higher ed, and investigates potential violations of civil rights
- Ensures equal educational opportunities for students with disabilities, English learners, and other high-need student populations, like students in rural schools
- Generates research and statistics on national education progress and opportunity
- Helps states, districts, and schools improve student outcomes and close gaps in student achievement
- Engages the global community through dialogue and participation in bilateral and multilateral settings to strengthen learning and exchange with other nations
- Promotes career learning, preparing students for the workforce and high-need, high-quality jobs

How many students does the Department of Education support?

Rough estimates of K-12 students served:

- 26 million students from low-income backgrounds served under Title I of the Elementary and Secondary Education Act (ESEA)
- 9.8 million students enrolled in rural schools
- 7.4 million students with disabilities served by the Individuals with Disabilities Education Act (IDEA)
- 5 million English Language Learner students served under Title III of the ESEA

- 1.1 million students experiencing homelessness served by the McKinney-Vento program
- Nearly 800,000 children living near military bases, Native American reservations, and other Federal properties served by Impact Aid
- 850,000 students served in Full-Service Community Schools
- 200,000 students served by 21st Century Community Learning Centers

Rough estimates of postsecondary students served:

- 87 million students and parents receive federal student aid to help pay for the cost of college, including \$36.6 billion in Pell Grants and \$1.6 trillion in current and outstanding federal student loans
- 6.6 million Pell Grant recipients
- 8.1 million secondary and 3.3 million postsecondary students served in Perkins Career and Technical Education programs
- 1.2 million learners (out-of-school youth and adults) served under Title II of the Workforce Innovation and Opportunity Act (WIOA)
- Millions of students across about 100 Historically Black Colleges and Universities (HBCUs), about 35 Tribal Colleges and Universities (TCUs), and over 500 Hispanic Serving Institutions (HSIs)

How many schools and institutions does the Department serve?

- K-12 funding that is required to be distributed every year reaches over 100,000 public schools in every State and territory and includes:
 - o More than \$15 billion to support 7.4 million students with disabilities;
 - o More than \$18 billion to support more than 26 million low-income students; and
 - o Nearly \$900 million to support 5 million English Learners
- Over 5,800 colleges, universities, and postsecondary institutions receive federal funding from the Department of Education.
- Between FY21 and FY24, the Office for Civil Rights received 69,613 complaints and resolved 55,361 of them, vigorously enforcing federal civil rights protections

What is the role of the Department’s Office for Civil Rights?

Congress guarantees that “no person” shall experience discrimination based on federally protected identity characteristics. The Office for Civil Rights (OCR) enforces federal civil rights laws that prohibit discrimination on the basis of race, color, national origin, sex, disability, and age in schools and programs that receive financial assistance from the Department, impacting 79 million individuals across the country.

OCR works to eliminate these barriers through robust investigations and resolutions, policy guidance, and training opportunities. OCR has seen a dramatic increase in complaints in recent years – from 9,707 complaints in 2020 to 22,687 in 2024 – across all enforcement areas. OCR helps parents protect their child's civil rights. Without OCR, no other agency will have the protection of *students’* civil rights as its core mission.

APPENDIX: State by State Fact Sheets Technical Notes

The following pages contain a fact sheet highlighting investments and reach of a selection of programs from the U.S. Department of Education on all fifty states, the District of Columbia, and Puerto Rico.

- Each fact sheet reflects award obligations data from Fiscal Year (FY) 2024. Obligations data includes new, continuation, supplemental, and frontloading awards, both for formula funding and discretionary/competitive dollars.
- The Department additionally publishes [State Tables](#) describing the allocation of State formula award funds appropriated in a specific year. The following fact sheets exhibit some slight variance from the State Tables due to timing and allocations of discretionary grant awards and advance funding for programs that may vary year over year. The State fact sheets that follow display sums showing the actual obligation of grant awards. For programs with advance funding, the actual obligation amounts included in each State fact sheet will differ from the award amounts included in the State Tables due to the timing and allocation of advance funds.
- Please note that not every state received funding for every program mentioned (e.g., in every competitive grant program), though most programs are reflected for all States.

Section 1: Critical Annual K-12 Funding

- **Individuals with Disabilities Education Act (IDEA):** Summarizes FY 2024 investments in IDEA for school-aged children and infants and toddlers with disabilities, and discretionary grants to support special educator development, technical assistance and parent-training centers. Students with disabilities counts are pulled from Office of Special Education Programs (OSEP) Part B child count [data](#) (ages 3-21). Student demographic data is annual by school year.
- **Elementary and Secondary Education Act (ESEA) Title I, Part A:** Summarizes FY 2024 investment from Title I, Part A of Elementary and Secondary Education Act (ESEA), which supports students from low-income backgrounds. Student population count is from NCES Elementary and Secondary Information System (ELSI) [database](#). Student demographic data is annual by school year
- **ESEA Title III:** Summarizes FY 2024 investment in ESEA Title III, which expands high-quality language instruction for English learners (ELs). ELs data is collected by NCES [database](#). ELs data is annual by school year.
- **ESEA Title IV, Part A:** Summarizes FY 2024 investment in the Student Support and Academic Enrichment (SSAE) program authorized through from ESEA Title IV, Part A, which helps create inclusive and well-rounded learning environments for students.
- **ESEA Title IV, Part B:** Summarizes FY 2024 annual investment in Nita M. Lowey 21st Century Learning Centers, authorized through ESEA Title IV, Part B, which supports academic enrichment programs during non-school hours.
- **ESEA Title V, Part B:** Summarizes FY 2024 investment in the Rural Education Achievement Program (REAP), Small, Rural School Achievement Program (SRSA) and Rural and Low-income School Program (RLIS) authorized by ESEA Title V, Part B, which supports students enrolled in rural schools.
- **ESEA Title VII:** Summarizes FY 2024 investment in Impact Aid, authorized by ESEA Title VII, which supports students living on military bases, Native American reservations and other Federal properties.

Section 2: Funding for Workforce Development Programs

- **Career and Technical Education (CTE) & Adult Education:** Summarizes FY 2024 investments from the Carl D. Perkins Career and Technical Education (Perkins) Act and Adult Education and Family Literacy Act (AEFLA) under Title II of the Workforce Innovation and Opportunity Act (WIOA) to connect students to career learning and workforce development opportunities.
- **Vocational Rehabilitation (VR):** Summarizes FY 2024 investments in all VR programs, including state grants and discretionary/competitive funds, which expand services and employment services to individuals with disabilities.

Section 3: Increasing college affordability and completion

- **Pell Grant:** Summarizes the number of Pell Grant recipients and total disbursement in Pell loans in each state based off student's state of residency for annual year 2023-2024.
- **Federal Student Aid:** Summarizes the cumulative number of borrowers in each state that have Direct Loans, Federal Family Education Loans, and Perkins Loans in open loan status and the balance, which includes outstanding principal and interest balances, in each state from 07/01/1994 to 09/30/2024. Interest on School-Held Perkins loans is not included in balances.
- **Competitive grants to support college access and success:** Summarizes FY 2024 investments through federal [TRIO Programs](#) and [Gaining Early Readiness for Undergraduate Programs](#) (GEAR UP) to increase college access for low-income and first-generation students and students with disabilities.
- **Institutional aid for Historically Black Colleges and Universities (HBCUs), Tribal Colleges and Universities (TCUs), and Minority Serving Institutions (MSIs):** Summarizes all mandatory and discretionary investments in Institutional Aid through Title III and Title V of the Higher Education Act in FY 2024 to strengthen and develop HBCUs, HSIs and Tribal Colleges and Universities (TCUs), Alaska Native and Native Hawaiian-Serving Institutions (ANNHSIs), Asian American- and Native American Pacific Islander-Serving Institutions (AANAPISIs), Predominately Black Institutions (PBIs) and Native American-Serving Nontribal Institutions (NASNIs).

Section 4: Competitive funding to support school districts, colleges and universities, and nonprofits

- **Mental Health Service Professionals (MHSP) and School-Based Mental Health (SBMH):** Summarizes FY 2024 investments from [MHSP](#) and [SBMH](#), funded by the Bipartisan Safer Communities Act and annual appropriations under the School Safety National Activities account, which help train mental health professionals and provide mental health services for schools.
- **Competitive awards for teachers:** Summarizes FY 2024 investments in [Teacher Quality Partnership Program](#), [Supporting Effective Education Development grants](#), [IDEA Part D Personnel Development grants](#), and the [National Professional Development Program](#), which support educators and address the needs of multilingual learners and students with disabilities.
- **Rural Postsecondary and Economic Development (RPED):** Summarizes FY 2024 investments in [RPED program](#) funded by the Fund for Improvement of Postsecondary Education (FIPSE) program, which promotes high-quality career pathways in rural areas.

DEPARTMENT OF EDUCATION INVESTMENTS IN ALASKA

Funding and support from the U.S. Department of Education in Alaska includes:

Critical annual K-12 funding to Alaska to meet the needs of 500 K-12 schools and over 155,000 K-12 students, including:

- \$50.3 million in annual funding for 20,000 students with disabilities – reflecting 13% of Alaska’s student population.
- \$53.8 million in annual funding for schools enrolling 52,000 students from low-income backgrounds – reflecting 34% of Alaska’s student population.
- \$1.1 million in annual funding for about 14,000 English learners – reflecting 9% of Alaska’s student population.
- \$10 million in annual funding to support safe and healthy students and provide a well-rounded education.
- \$6.5 million in annual funding to support academic enrichment activities such as before and after school programs for students.
- \$885,000 in annual funding for students enrolled in rural schools.
- \$159,000 in annual funding to support children living on military bases or Native American reservations.

Funding for Department of Education-administered workforce development programs, including:

- \$8 million in annual funding for career and technical education and workforce development in Alaska.
- \$19 million in annual funding to expand employment and services for individuals with disabilities in Alaska.

Dispersing financial aid and supports to help students across Alaska to attend and complete college, including:

- \$42 million in Pell Grants reaching 8,300 students in Alaska.
- \$2 billion in current and outstanding federal student loans to support the education of 68,000 borrowers in Alaska.
- \$3.4 million in annual funding to increase college access and success for low-income and first-generation students and students with disabilities in Alaska.
- \$7.6 million in annual funding for four Minority-Serving Institutions in Alaska.

Competitive funds - which school districts, colleges and universities, nonprofit organizations, and more have already competed for, and won, and are receiving from the Department, including:

- \$2.3 million in K-12 mental health supports to prepare mental health professionals to serve Alaska’s schools.
- \$1 million to recruit and develop teachers and educators to better serve students.

All sums reflect FY 2024 disbursements as of 09/30/2024. There may be slight variance with Department of Education’s [annual budget tables](#) due to timing and allocations of discretionary grant awards and advance funding for programs that may vary year over year. For additional information please see: [ED Budget Office](#). Outstanding student loans are summarized as the cumulative total number of borrowers in each state that have open loans and balance, from 07/01/1994 to 09/30/2024.

DEPARTMENT OF EDUCATION INVESTMENTS IN ALABAMA

Funding and support from the U.S. Department of Education in Alabama includes:

Critical annual K-12 funding to Alabama to meet the needs of 1,500 K-12 schools and over 712,000 K-12 students, including:

- \$239 million in annual funding for 100,000 students with disabilities – reflecting 14% of Alabama’s student population.
- \$303 million in annual funding for schools enrolling 452,000 students from low-income backgrounds – reflecting 63% of Alabama’s student population.
- \$4.8 million in annual funding for about 35,000 English learners – reflecting 5% of Alabama’s student population.
- \$22 million in annual funding to support safe and healthy students and provide a well-rounded education.
- \$21 million in annual funding to support academic enrichment activities such as before and after school programs for students.
- \$5.5 million in annual funding for students enrolled in rural schools.
- \$3 million in annual funding to support children living on military bases or Native American reservations.

Funding for Department of Education-administered workforce development programs, including:

- \$36 million in annual funding for career and technical education and workforce development in Alabama.
- \$82 million in annual funding to expand employment and services for individuals with disabilities in Alabama.

Dispersing financial aid and supports to help students across Alabama to attend and complete college, including:

- \$542 million in Pell Grants reaching 100,000 students in Alabama.
- \$24 billion in current and outstanding federal student loans to support the education of 657,000 borrowers in Alabama.
- \$50 million in annual funding to increase college access and success for low-income and first-generation students and students with disabilities in Alabama.
- \$74 million in annual funding for 13 Historically Black Colleges and Universities and five Minority-Serving Institutions in Alabama.

Competitive funds - which school districts, colleges and universities, nonprofit organizations, and more have already competed for, and won, and are receiving from the Department, including:

- \$3 million in K-12 mental health supports to prepare mental health professionals to serve Alabama’s schools.
- \$3 million to recruit and develop teachers and educators to better serve students.
- \$9 million to promote development of high-quality career pathways aligned to high-skill, high-wage, and in-demand industry sectors and occupations in rural areas.

All sums reflect FY 2024 disbursements as of 09/30/2024. There may be slight variance with Department of Education’s [annual budget tables](#) due to timing and allocations of discretionary grant awards and advance funding for programs that may vary year over year. For additional information please see: [ED Budget Office](#). Outstanding student loans are summarized as the cumulative total number of borrowers in each state that have open loans and balance, from 07/01/1994 to 09/30/2024.

DEPARTMENT OF EDUCATION INVESTMENTS IN ARKANSAS

Funding and support from the U.S. Department of Education in Arkansas includes:

Critical annual K-12 funding to Arkansas to meet the needs of 1,000 K-12 schools and over 488,000 K-12 students, including:

- \$152 million in annual funding for 80,000 students with disabilities – reflecting 16% of Arkansas’s student population.
- \$177 million in annual funding for schools enrolling 358,000 students from low-income backgrounds – reflecting 73% of Arkansas’s student population.
- \$4 million in annual funding for about 40,000 English learners – reflecting 8% of Arkansas’s student population.
- \$13 million in annual funding to support safe and healthy students and provide a well-rounded education.
- \$12 million in annual funding to support academic enrichment activities such as before and after school programs for students.
- \$6 million in annual funding for students enrolled in rural schools.
- \$633,000 in annual funding to support children living on military bases or Native American reservations.

Funding for Department of Education-administered workforce development programs, including:

- \$22 million in annual funding for career and technical education and workforce development in Arkansas.
- \$47 million in annual funding to expand employment and services for individuals with disabilities in Arkansas.

Dispersing financial aid and supports to help students across Arkansas to attend and complete college, including:

- \$296 million in Pell Grants reaching 61,000 students in Arkansas.
- \$14 billion in current and outstanding federal student loans to support the education of 404,000 borrowers in Arkansas.
- \$36 million in annual funding to increase college access and success for low-income and first-generation students and students with disabilities in Arkansas.
- \$19.5 million in annual funding for three Minority-Serving Institutions in Arkansas.

Competitive funds - which school districts, colleges and universities, nonprofit organizations, and more have already competed for, and won, and are receiving from the Department, including:

- \$1.3 million in K-12 mental health supports to prepare mental health professionals to serve Arkansas’s schools.
- \$1.7 million to recruit and develop teachers and educators to better serve students.

All sums reflect FY 2024 disbursements as of 09/30/2024. There may be slight variance with Department of Education’s [annual budget tables](#) due to timing and allocations of discretionary grant awards and advance funding for programs that may vary year over year. For additional information please see: [ED Budget Office](#). Outstanding student loans are summarized as the cumulative total number of borrowers in each state that have open loans and balance, from 07/01/1994 to 09/30/2024.

DEPARTMENT OF EDUCATION INVESTMENTS IN ARIZONA

Funding and support from the U.S. Department of Education in Arizona includes:

Critical annual K-12 funding to Arizona to meet the needs of 2,000 K-12 schools and over 1.3 million K-12 students, including:

- \$272 million in annual funding for 150,000 students with disabilities – reflecting 12% of Arizona’s student population.
- \$345 million in annual funding for schools enrolling 302,000 students from low-income backgrounds – reflecting 23% of Arizona’s student population.
- \$15.5 million in annual funding for about 94,000 English learners – reflecting 7% of Arizona’s student population.
- \$25 million in annual funding to support safe and healthy students and provide a well-rounded education.
- \$24 million in annual funding to support academic enrichment activities such as before and after school programs for students.
- \$6.5 million in annual funding for students enrolled in rural schools.
- \$238 million in annual funding to support children living on military bases or Native American reservations.

Funding for Department of Education-administered workforce development programs, including:

- \$52 million in annual funding for career and technical education and workforce development in Arizona.
- \$86 million in annual funding to expand employment and services for individuals with disabilities in Arizona.

Dispersing financial aid and supports to help students across Arizona to attend and complete college, including:

- \$609 million in Pell Grants reaching 132,000 students in Arizona.
- \$33 billion in current and outstanding federal student loans to support the education of 914,000 borrowers in Arizona.
- \$23 million in annual funding to increase college access and success for low-income and first-generation students and students with disabilities in Arizona.
- \$23 million in annual funding for 24 Minority-Serving Institutions in Arizona.

Competitive funds - which school districts, colleges and universities, nonprofit organizations, and more have already competed for, and won, and are receiving from the Department, including:

- \$1.7 million in K-12 mental health supports to prepare mental health professionals to serve Arizona’s schools.
- \$5 million to recruit and develop teachers and educators to better serve students.
- \$4.4 million to promote development of high-quality career pathways aligned to high-skill, high-wage, and in-demand industry sectors and occupations in rural areas.

All sums reflect FY 2024 disbursements as of 09/30/2024. There may be slight variance with Department of Education’s [annual budget tables](#) due to timing and allocations of discretionary grant awards and advance funding for programs that may vary year over year. For additional information please see: [ED Budget Office](#). Outstanding student loans are summarized as the cumulative total number of borrowers in each state that have open loans and balance, from 07/01/1994 to 09/30/2024.

DEPARTMENT OF EDUCATION INVESTMENTS IN CALIFORNIA

Funding and support from the U.S. Department of Education in California includes:

Critical annual K-12 funding to California to meet the needs of 10,000 K-12 schools and over 6.7 million K-12 students, including:

- \$1.6 billion in annual funding for 805,000 students with disabilities – reflecting 12% of California’s student population.
- \$2.2 billion in annual funding for schools enrolling 4 million students from low-income backgrounds – reflecting 60% of California’s student population.
- \$158 million in annual funding for about 1 million English learners – reflecting 15% of California’s student population.
- \$154 million in annual funding to support safe and healthy students and provide a well-rounded education.
- \$147 million in annual funding to support academic enrichment activities such as before and after school programs for students.
- \$13.4 million in annual funding for students enrolled in rural schools.
- \$123 million in annual funding to support children living on military bases or Native American reservations.

Funding for Department of Education-administered workforce development programs, including:

- \$262 million in annual funding for career and technical education and workforce development in California.
- \$353 million in annual funding to expand employment and services for individuals with disabilities in California.

Dispersing financial aid and supports to help students across California to attend and complete college, including:

- \$4.4 billion in Pell Grants reaching 904,000 students in California.
- \$151 billion in current and outstanding federal student loans to support the education of 4 million borrowers in California.
- \$181 million in annual funding to increase college access and success for low-income and first-generation students and students with disabilities in California.
- \$136 million in annual funding for one Historically Black College and 175 Minority-Serving Institutions in California.

Competitive funds - which school districts, colleges and universities, nonprofit organizations, and more have already competed for, and won, and are receiving from the Department, including:

- \$46 million in K-12 mental health supports to prepare mental health professionals to serve California’s schools.
- \$60 million to recruit and develop teachers and educators to better serve students.
- \$4.4 million to promote development of high-quality career pathways aligned to high-skill, high-wage, and in-demand industry sectors and occupations in rural areas.

All sums reflect FY 2024 disbursements as of 09/30/2024. There may be slight variance with Department of Education’s [annual budget tables](#) due to timing and allocations of discretionary grant awards and advance funding for programs that may vary year over year. For additional information please see: [ED Budget Office](#). Outstanding student loans are summarized as the cumulative total number of borrowers in each state that have open loans and balance, from 07/01/1994 to 09/30/2024.

DEPARTMENT OF EDUCATION INVESTMENTS IN COLORADO

Funding and support from the U.S. Department of Education in Colorado includes:

Critical annual K-12 funding to Colorado to meet the needs of 1,900 K-12 schools and over 954,000 K-12 students, including:

- \$220 million in annual funding for 113,000 students with disabilities – reflecting 12% of Colorado’s student population.
- \$186 million in annual funding for schools enrolling 254,000 students from low-income backgrounds – reflecting 26% of Colorado’s student population.
- \$11 million in annual funding for about 92,000 English learners – reflecting 10% of Colorado’s student population.
- \$14 million in annual funding to support safe and healthy students and provide a well-rounded education.
- \$13 million in annual funding to support academic enrichment activities such as before and after school programs for students.
- \$3 million in annual funding for students enrolled in rural schools.
- \$54 million in annual funding to support children living on military bases or Native American reservations.

Funding for Department of Education-administered workforce development programs, including:

- \$30 million in annual funding for career and technical education and workforce development in Colorado.
- \$66 million in annual funding to expand employment and services for individuals with disabilities in Colorado.

Dispersing financial aid and supports to help students across Colorado to attend and complete college, including:

- \$386 million in Pell Grants reaching 81,000 students in Colorado.
- \$29 billion in current and outstanding federal student loans to support the education of 782,000 borrowers in Colorado.
- \$29 million in annual funding to increase college access and success for low-income and first-generation students and students with disabilities in Colorado.
- \$14 million in annual funding for 14 Minority-Serving Institutions in Colorado.

Competitive funds - which school districts, colleges and universities, nonprofit organizations, and more have already competed for, and won, and are receiving from the Department, including:

- \$6.4 million in K-12 mental health supports to prepare mental health professionals to serve Colorado’s schools.
- \$3.8 million to recruit and develop teachers and educators to better serve students.

All sums reflect FY 2024 disbursements as of 09/30/2024. There may be slight variance with Department of Education’s [annual budget tables](#) due to timing and allocations of discretionary grant awards and advance funding for programs that may vary year over year. For additional information please see: [ED Budget Office](#). Outstanding student loans are summarized as the cumulative total number of borrowers in each state that have open loans and balance, from 07/01/1994 to 09/30/2024.

DEPARTMENT OF EDUCATION INVESTMENTS IN CONNECTICUT

Funding and support from the U.S. Department of Education in Connecticut includes:

Critical annual K-12 funding to Connecticut to meet the needs of 1,000 K-12 schools and over 533,000 K-12 students, including:

- \$174 million in annual funding for 88,000 students with disabilities – reflecting 17% of Connecticut’s student population.
- \$156 million in annual funding for schools enrolling 183,000 students from low-income backgrounds – reflecting 34% of Connecticut’s student population.
- \$7.8 million in annual funding for about 48,000 English learners – reflecting 9% of Connecticut’s student population.
- \$11.4 million in annual funding to support safe and healthy students and provide a well-rounded education.
- \$11 million in annual funding to support academic enrichment activities such as before and after school programs for students.
- \$1.4 million in annual funding for students enrolled in rural schools.
- \$7.6 million in annual funding to support children living on military bases or Native American reservations.

Funding for Department of Education-administered workforce development programs, including:

- \$19 million in annual funding for career and technical education and workforce development in Connecticut.
- \$26 million in annual funding to expand employment and services for individuals with disabilities in Connecticut.

Dispersing financial aid and supports to help students across Connecticut to attend and complete college, including:

- \$286 million in Pell Grants reaching 63,000 students in Connecticut.
- \$19 billion in current and outstanding federal student loans to support the education of 517,000 borrowers in Connecticut.
- \$12 million in annual funding to increase college access and success for low-income and first-generation students and students with disabilities in Connecticut.
- \$3 million in annual funding for 11 Minority-Serving Institutions in Connecticut.

Competitive funds - which school districts, colleges and universities, nonprofit organizations, and more have already competed for, and won, and are receiving from the Department, including:

- \$1.7 million in K-12 mental health supports to prepare mental health professionals to serve Connecticut’s schools.
- \$3 million to recruit and develop teachers and educators to better serve students.

All sums reflect FY 2024 disbursements as of 09/30/2024. There may be slight variance with Department of Education’s [annual budget tables](#) due to timing and allocations of discretionary grant awards and advance funding for programs that may vary year over year. For additional information please see: [ED Budget Office](#). Outstanding student loans are summarized as the cumulative total number of borrowers in each state that have open loans and balance, from 07/01/1994 to 09/30/2024.

DEPARTMENT OF EDUCATION INVESTMENTS IN THE DISTRICT OF COLUMBIA

Funding and support from the U.S. Department of Education in the District of Columbia includes:

Critical annual K-12 funding to the District of Columbia to meet the needs of 200 K-12 schools and over 98,000 K-12 students, including:

- \$142 million in annual funding for 15,000 students with disabilities – reflecting 15% of the District of Columbia’s student population.
- \$60 million in annual funding for schools enrolling 51,000 students from low-income backgrounds – reflecting 52% of the District of Columbia’s student population.
- \$1.5 million in annual funding for about 10,000 English learners – reflecting 10% of the District of Columbia’s student population.
- \$6.7 million in annual funding to support safe and healthy students and provide a well-rounded education.
- \$6.5 million in annual funding to support academic enrichment activities such as before and after school programs for students.
- \$2.5 million in annual funding to support children living on military bases or Native American reservations.

Funding for Department of Education-administered workforce development programs, including:

- \$8.3 million in annual funding for career and technical education and workforce development in the District of Columbia.
- \$39 million in annual funding to expand employment and services for individuals with disabilities in the District of Columbia.

Dispersing financial aid and supports to help students across the District of Columbia to attend and complete college, including:

- \$30 million in Pell Grants reaching 8,000 students in the District of Columbia.
- \$6 billion in current and outstanding federal student loans to support the education of 117,000 borrowers in the District of Columbia.
- \$7.2 million in annual funding to increase college access and success for low-income and first-generation students and students with disabilities in the District of Columbia.
- \$234 million in annual funding for two Historically Black Colleges and Universities and one Minority-Serving Institution in the District of Columbia.

Competitive funds - which school districts, colleges and universities, nonprofit organizations, and more have already competed for, and won, and are receiving from the Department, including:

- \$3.6 million in K-12 mental health supports to prepare mental health professionals to serve the District of Columbia’s schools.
- \$2.6 million to recruit and develop teachers and educators to better serve students.

All sums reflect FY 2024 disbursements as of 09/30/2024. There may be slight variance with Department of Education’s [annual budget tables](#) due to timing and allocations of discretionary grant awards and advance funding for programs that may vary year over year. For additional information please see: [ED Budget Office](#). Outstanding student loans are summarized as the cumulative total number of borrowers in each state that have open loans and balance, from 07/01/1994 to 09/30/2024.

DEPARTMENT OF EDUCATION INVESTMENTS IN DELAWARE

Funding and support from the U.S. Department of Education in Delaware includes:

Critical annual K-12 funding to Delaware to meet the needs of 200 K-12 schools and over 140,000 K-12 students, including:

- \$50 million in annual funding for 27,000 students with disabilities – reflecting 19% of Delaware’s student population.
- \$214,000 in annual funding for students enrolled in rural schools.
- \$59 million in annual funding for schools enrolling 100,000 students from low-income backgrounds – reflecting 71% of Delaware’s student population.
- \$2 million in annual funding for about 16,000 English learners – reflecting 12% of Delaware’s student population.
- \$6.7 million in annual funding to support safe and healthy students and provide a well-rounded education.
- \$6.5 million in annual funding to support academic enrichment activities such as before and after school programs for students.
- \$214,000 in annual funding for students enrolled in rural schools.
- \$53,000 in annual funding to support children living on military bases or Native American reservations.

Funding for Department of Education-administered workforce development programs, including:

- \$8.3 million in annual funding for career and technical education and workforce development in Delaware.
- \$13 million in annual funding to expand employment and services for individuals with disabilities in Delaware.

Dispersing financial aid and supports to help students across Delaware to attend and complete college, including:

- \$90 million in Pell Grants reaching 17,000 students in Delaware.
- \$5 billion in current and outstanding federal student loans to support the education of 135,000 borrowers in Delaware.
- \$3.3 million in annual funding to increase college access and success for low-income and first-generation students and students with disabilities in Delaware.
- \$8 million in annual funding for one Historically Black College in Delaware.

Competitive funds - which school districts, colleges and universities, nonprofit organizations, and more have already competed for, and won, and are receiving from the Department, including:

- \$780,000 in K-12 mental health supports to prepare mental health professionals to serve Delaware’s schools.
- \$829,000 to recruit and develop teachers and educators to better serve students.

All sums reflect FY 2024 disbursements as of 09/30/2024. There may be slight variance with Department of Education’s [annual budget tables](#) due to timing and allocations of discretionary grant awards and advance funding for programs that may vary year over year. For additional information please see: [ED Budget Office](#). Outstanding student loans are summarized as the cumulative total number of borrowers in each state that have open loans and balance, from 07/01/1994 to 09/30/2024.

DEPARTMENT OF EDUCATION INVESTMENTS IN FLORIDA

Funding and support from the U.S. Department of Education in Florida includes:

Critical annual K-12 funding to Florida to meet the needs of 4,200 K-12 schools and over 3 million K-12 students, including:

- \$858 million in annual funding for 432,000 students with disabilities – reflecting 14% of Florida’s student population.

DEPARTMENT OF EDUCATION INVESTMENTS IN NEW MEXICO

Funding and support from the U.S. Department of Education in New Mexico includes:

Critical annual K-12 funding to New Mexico to meet the needs of 880 K-12 schools and over 339,000 K-12 students, including:

- \$119 million in annual funding for 56,000 students with disabilities – reflecting 17% of New Mexico’s student population.
- \$143 million in annual funding for schools enrolling 260,000 students from low-income backgrounds – reflecting 77% of New Mexico’s student population.
- \$5.8 million in annual funding for about 60,000 English learners – reflecting 18% of New Mexico’s student population.
- \$12 million in annual funding to support safe and healthy students and provide a well-rounded education.
- \$10 million in annual funding to support academic enrichment activities such as before and after school programs for students.
- \$4 million in annual funding for students enrolled in rural schools.
- \$115 million in annual funding to support children living on military bases or Native American reservations.

Funding for Department of Education-administered workforce development programs, including:

- \$24 million in annual funding for career and technical education and workforce development in New Mexico.
- \$29.5 million in annual funding to expand employment and services for individuals with disabilities in New Mexico.

Dispersing financial aid and supports to help students across New Mexico to attend and complete college, including:

- \$197 million in Pell Grants reaching 40,000 students in New Mexico.
- \$8 billion in current and outstanding federal student loans to support the education of 227,000 borrowers in New Mexico.
- \$19.7 million in annual funding to increase college access and success for low-income and first-generation students and students with disabilities in New Mexico.
- \$25 million in annual funding for 26 Minority-Serving Institutions in New Mexico.

Competitive funds - which school districts, colleges and universities, nonprofit organizations, and more have already competed for, and won, and are receiving from the Department, including:

- \$2 million in K-12 mental health supports to prepare mental health professionals to serve New Mexico’s schools.
- \$3.8 million to recruit and develop teachers and educators to better serve students.
- \$4 million to promote development of high-quality career pathways aligned to high-skill, high-wage, and in-demand industry sectors and occupations in rural areas.

All sums reflect FY 2024 disbursements as of 09/30/2024. There may be slight variance with Department of Education’s [annual budget tables](#) due to timing and allocations of discretionary grant awards and advance funding for programs that may vary year over year. For additional information please see: [ED Budget Office](#). Outstanding student loans are summarized as the cumulative total number of borrowers in each state that have open loans and balance, from 07/01/1994 to 09/30/2024.

DEPARTMENT OF EDUCATION INVESTMENTS IN NEVADA

Funding and support from the U.S. Department of Education in Nevada includes:

Critical annual K-12 funding to Nevada to meet the needs of 700 K-12 schools and over 534,000 K-12 students, including:

- \$107 million in annual funding for 64,000 students with disabilities – reflecting 12% of Nevada’s student population.
- \$169 million in annual funding for schools enrolling 270,000 students from low-income backgrounds – reflecting 51% of Nevada’s student population.
- \$8.2 million in annual funding for about 67,000 English learners – reflecting 13% of Nevada’s student population.
- \$13.3 million in annual funding to support safe and healthy students and provide a well-rounded education.
- \$12.3 million in annual funding to support academic enrichment activities such as before and after school programs for students.
- \$485,000 in annual funding for students enrolled in rural schools.
- \$9.2 million in annual funding to support children living on military bases or Native American reservations.

Funding for Department of Education-administered workforce development programs, including:

- \$21 million in annual funding for career and technical education and workforce development in Nevada.
- \$26.2 million in annual funding to expand employment and services for individuals with disabilities in Nevada.

Dispersing financial aid and supports to help students across Nevada to attend and complete college, including:

- \$264 million in Pell Grants reaching 57,000 students in Nevada.
- \$13 billion in current and outstanding federal student loans to support the education of 363,000 borrowers in Nevada.
- \$20 million in annual funding to increase college access and success for low-income and first-generation students and students with disabilities in Nevada.
- \$1.7 million in annual funding for five Minority-Serving Institutions in Nevada.

Competitive funds - which school districts, colleges and universities, nonprofit organizations, and more have already competed for, and won, and are receiving from the Department, including:

- \$204,000 in K-12 mental health supports to prepare mental health professionals to serve Nevada’s schools.
- \$1.8 million to recruit and develop teachers and educators to better serve students.

All sums reflect FY 2024 disbursements as of 09/30/2024. There may be slight variance with Department of Education’s [annual budget tables](#) due to timing and allocations of discretionary grant awards and advance funding for programs that may vary year over year.
