Good afternoon Rules Committee Chair Rasmussen,

After speaking with the WV State Education office, we do not see anything in this change that would cause a hardship to our current operations. While the WV State BOE establishes the baseline curriculum, counties can add courses to the State baseline. That said, we still see no issues that would prevent us from meeting our current standards. We see no issue with the change.

We are curious to know why this change occurred. This might help us understand the proposal better, thank you.

Sincerely,
Nickolas Lambruno, West Virginia Commissioner
